

**WANT TO CHANGE THE WAY YOU
LOOK AT YOUR SUPPLY CHAIN TODAY?**

AHLERS DATA ANALYTICS

SOLUTIONS BEYOND LOGISTICS

DESIGNING YOUR SUPPLY CHAIN OF THE FUTURE

Contact us today

The Ahlers supply network optimization and analytics visualization platform combines, enriches, and visualizes your supply chain.

We have the most skilled architects in the field. Our advisory experience in the supply chain industry, using state-of-the-art software tools, together with our creativity and efficiency, is what makes us unique.

SUPPLY CHAIN EFFICIENCY THROUGH DATA VISUALIZATION

Turn bottlenecks into supply chain improvement opportunities

- Identify trends, bottlenecks, and risks in your supply chain network.
- Track CO2 emissions of logistics movements.
- Track and monitor KPI's, carefully selected by logistic experts.
- Share visualizations with stakeholders, making your supply chain more tangible and to encourage bigger thinking.
- Fully linked, interactive and enriched data visualization.

INTERESTED TO FIND OUT HOW EASY IT CAN BE TO SEE THE BIG PICTURE?

OPTIMIZATION SUPPLY CHAIN DESIGN AND PERFORMANCE

Turn complex environments into a competitive advantage through network optimization models

- Generate sourcing schemes in your ERP to drive operational cost savings.
- Evaluate product flow paths, adjust sales price according to cost-to-serve.
- Compare TO-BE with AS-IS design and evaluate supply chain set-up cost, service, and environmental impact.
- Make better decisions with a holistic view of the complete end-to-end supply network.

STRUGGLING TO IDENTIFY QUICK WINS? PERFORM A SUPPLY CHAIN NETWORK STUDY

NETWORK EVENT SIMULATION

Simulate the impact of disruptions and/or specific events to build your logistics roadmap on the go

- Simulate numerous designs together with the help of our experts.
- Evaluate point-in-time metrics and set up a state-of-the-art contingency plan.
- Assess when to add additional buffer capacity to cover for uncertainties.
- A holistic view of the complete supply network for better and faster decision making.
