

What do we offer?

Supply Chain Solutions

We provide end-to-end sustainable supply chain solutions, offering multi-modal transport options. Globally we facilitate the entire physical and administrative process of intake, storage, handling, customs clearance and distribution of your goods. We also have 4 warehouses in different regions in Russia with a bonded warehouse in Saint Petersburg.

Project Logistics

We manage your complex global projects, tailor-made, with a clear scope and a dedicated team. We always strive for optimal solutions whether it is a container or a breakbulk shipment, heavy lift handling or out of gauge services. Moreover, we take care of your door-to-door delivery of heavy machinery, rolling stock and mining equipment.

Secured Transportation of Theft Sensitive Goods

We have over 20 years' specialized knowledge in transporting high-value cargo by road and rail in Eastern Europe, Russia, and CIS. With

our next-generation monitoring and security solution (IoT based), we provide the highest standards in secured transportation, reducing the dependency of human interaction while realizing significant cost savings.

Trade Facilitation and After-Sales Service

We help customers develop trade and after-sales service, offering a route to market, that facilitates the import and trading function of a local distributor and/or legal entity, providing the customer with full control of their business in complex regions (CIS and Asia). Additionally, we provide an answer to after-sales needs, including compliant free-of-charge warranty import-exports, spare-part logistics, and local stock fulfillment.

Data Analytics and Business Intelligence

We optimize logistics cost, performance, and sustainability based on smart data. Using innovative technologies, we visualize our customers' supply network proposing actionable insights and improvement opportunities in a user-friendly way. This helps our customers to make the right investment decision and evaluate improvement scenarios in their own network.

We enable our customers to stay focused on their core business by creating and managing innovative solutions that add value and solve their supply chain challenges in complex markets.

Solutions Beyond Logistics

However far our customers aim to go, we are always right beside them. We envisage to see the world from their perspective and help them identify the best way of organizing their logistics activities. This results in tailor-made, unique solutions to fit our customer's profile, often going beyond pure logistics.

Reducing total go-to-market cost, creating long-term added value. In each activity, using the right resources. **That's our objective.** Because our creativity and flexibility have no boundaries.

About Us

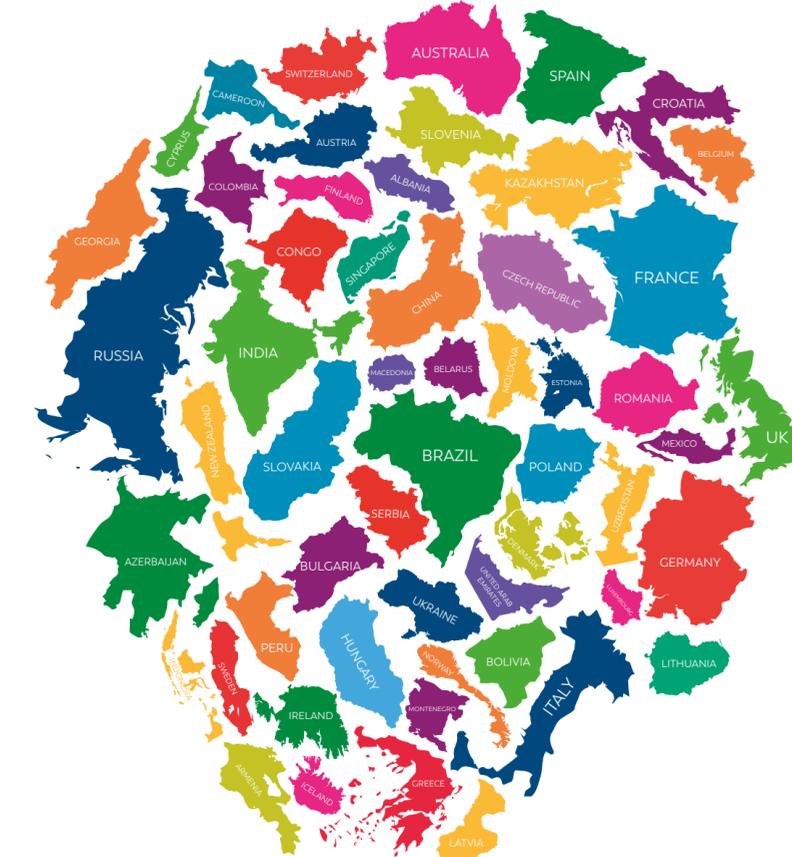

For more than 110 years Ahlers has been helping clients all over the world. With 650 employees in 3 regions (Europe, CIS, Asia), we provide state-of-the-art logistics and tailor-made solutions.
